

LAND DISTURBANCE PERMIT APPLICATION

Project Name: _____

File #: _____

Applicant name: _____ Address: _____ City: _____ State _____ Zip _____ Phone: _____ Email: _____ Applicant is (circle one): owner / contractor / other*: _____ *permission letter from owner required	Owner name: _____ Address: _____ City: _____ State: _____ Zip: _____ Phone: _____
Tax Map #: _____ Hydrologic Unit Code: PS _____ Acreage disturbed: _____ Site Location address(or street name if # not assigned): _____ City: _____ State: _____ Zip: _____	Excavating: Company name: _____ Address: _____ City: _____ State _____ Zip _____ Phone: _____ Contact Person: _____ Cell #: _____ Email: _____
Type of disturbance (check one) <input type="checkbox"/> AGRICULTURAL <input type="checkbox"/> COMMERCIAL <input type="checkbox"/> SINGLE FAMILY DWELLING <input type="checkbox"/> MUNICIPAL	Plan prepared by: Name of Engineering Firm: _____ Address: _____ Phone: _____ Email: _____ Contact Person: _____ CRLD for Plan Approval Only ? _____
Certified Responsible Land Disturber (CRLD) : Certificate #: _____ Expiration Date ___/___/___ Person Responsible for carrying out the E&S Plan: _____	Permanent SWM Facilities Maintenance Agreement Required? <input type="checkbox"/> Yes <input type="checkbox"/> No Master Plan Required? <input type="checkbox"/> Yes <input type="checkbox"/> No
Virginia Stormwater Management Program (VSMP) Coverage Necessary? <input type="checkbox"/> Yes <input type="checkbox"/> No (Requires Construction General Permit for stormwater discharges from sites that disturb greater than or equal to 1 acre)	

APPLICABLE FEDERAL AND STATE PERMITS AND GUIDELINES

VDOT Entrance Permit

Sections 33.2-240 & 33.2-241 of the Code of Virginia govern the ability of private homes, commercial businesses, and agricultural activities to connect their private roads over and across the shoulders and unimproved parts of the State highway system to the paved or otherwise improved parts thereof. New entrances are obtained through a permitting process administered by the Virginia Department of Transportation (VDOT) that is intended to ensure that entrances are safe and appropriate.

This process is required for all construction entrances shown on the approved erosion and sediment control plan. Contact VDOT's local Harrisonburg Residency at (540) 434-2586.

I hereby certify that the Rockingham County Erosion and Sediment Control permit processor has informed me of the necessity of obtaining an entrance permit from the Virginia Department of Transportation.

I have read and understand the above statement:

Applicant: _____

Rockingham County Floodplain Notification

Any operation that is to take place in a FEMA designated floodplain must be in compliance with the Rockingham County Floodplain Ordinance which states that "with the special floodplain area no new construction or development shall be allowed unless it is demonstrated that the cumulative effect of the proposed development, when combined with other existing and anticipated development, will not increase the elevation of the one hundred (100) year flood more than one (1) foot at any point." In order to perform any operation, regardless of total disturbed square footage, in a FEMA designated floodplain you must submit an engineer's designed plan proving that the base flood elevation will not increase more than one (1) foot. Along with this plan you will need to file the appropriate paperwork with FEMA for conducting work within a designated floodplain.

I have read and understand the above statement:

Applicant: _____

CERTIFICATION OF PERSONNEL

Person responsible for carrying out the E&SC Plan

Name: _____
Signature Date

Print

Phone: _____

**Person holding Certificate of Competence issued by DEQ
“Certified Responsible Land Disturber”**

Name: _____
Signature Date

Print

Phone: _____
